2025 VALUE-BASED CARE AND POPULATION HEALTH MANAGEMENT SUMMIT

October 20-21, 2025 • MGM Grand • Las Vegas, NV

SPEAKING FACULTY

Michele Forgues Lackie, MBA, FACHE, FACMPE, CHFP, CCP
Chief Financial Officer of the INW Region (Inland Northwest)
MULTICARE HEALTH SYSTEM

Anthony Roggio, MD
Assistant Professor
Department of Emergency Medicine
UNIVERSITY OF MARYLAND SCHOOL OF MEDICINE
Medical Director of Telehealth
UNIVERSITY OF MARYLAND MEDICAL SYSTEM

Rishikesh P. Dalal, MD, MPH
WEILL CORNELL MEDICINE
Clinical Assistant Professor of Medicine
WEILL CORNELL MEDICAL COLLEGE

Vladimir Manuel, MD, MS
Senior Quality Officer
Assistant Professor,
UCLA Department of Family Medicine
Health Systems Researcher
UCLA HEALTH

Heather Leisy, MD
Medical Director of
Population Health Quality
UC DAVIS

Nina Jain, MD
Senior Medical Director, Value-Based Care
MASS GENERAL BRIGHAM

Brian Justice, MD
Adjunct Assistant Professor of Public Health Sciences
UNIVERSITY OF ROCHESTER SCHOOL OF MEDICINE AND DENTISTRY

Maisha Draves, MD, MPH
Associate Executive Director
THE PERMANENTE MEDICAL GROUP

Shashank Ravi, MD MBA
Medical Director of Health Plans and Value Based Care
STANFORD HEALTH CARE
Director of Quality, Adult Emergency Department
Associate Professor
Department of Emergency Medicine
Stanford University School of Medicine
STANFORD HEALTH

Nicole Blair
Manager, Behavioral Health Integration
ADVOCATE HEALTH

Carla Beckerle
Vice President of Clinical Programs
ESSE HEALTH

Rachel Sasseville, LICSW, LADC-I
Director of Corporate Training
SPECTRUM HEALTH

Jerry Hauptman, MD
Chief Medical Officer and Senior Vice President of National Accounts
UNITEDHEALTHCARE

Roshini Moodley Naidoo, MBChB, MPH, MBA
Professor of Practice
College of Health Solutions
ARIZONA STATE UNIVERSITY

Tamara Bourda, PhD, MBA, MPH, FACHE
System Administrative Officer,
Health Equity

KEY HIGHLIGHTS

- Beyond Fee-for-Service: Navigating the New Healthcare Payment Paradigm
- The Crossover of Virtual Care and Value Based Care
- AI-Powered Population Health: From Data Chaos to Clinical Clarity
- When Capacity Becomes the Catalyst: Aligning Fee-for-Service and Value-Based Incentives
- Digital Therapeutics and Virtual Care: Scaling Personalized Medicine
- Workforce Transformation in the Age of Value-Based Care
- Cracking the Code on Provider Engagement in Value-Based Care
- Medicaid Managed Care Innovation: Serving Vulnerable Populations Through Value-Based Models
- Behavioral Health Integration: Breaking Down the Silos
- Workforce as Strategy: Preparing Clinicians to Deliver Value-Based, Whole-Person Addiction Care
- Consumer-Directed Health: Empowering Patients as Partners in Value Creation
- The Future of Value-Based Contracting: Harnessing AI
- Health Equity as a Business Imperative
- Rural Health Innovation: Overcoming Geographic and Resource Constraints
- The Future of Healthcare: Emerging Models and Disruptive Innovations
- Specialty Care Transformation: Bringing Value-Based Models to Complex Conditions
- Building Your Value-Based Care Strategic Roadmap

CONFERENCE WORKSHOP

Building Your Value-Based Care Strategic Roadmap

- BENEVOLENCE HEALTH

ABOUT THE CONFERENCE

This summit brings together healthcare executives, payer leaders and clinical innovators who are reshaping the future of healthcare delivery through value-based care models. As the industry continues its rapid evolution toward outcome-driven payment structures, organizations need practical strategies and real-world insights to navigate this complex transformation successfully.

Our program explores the latest developments in population health management, advanced analytics and sustainable care coordination models that are driving measurable results. From emerging alternative payment models to cutting-edge health equity initiatives, attendees will discover how leading organizations are achieving better outcomes while reducing costs.

Join us for discussions, interactive case studies and networking opportunities with industry leaders who are successfully implementing value-based care strategies. Leave equipped with actionable frameworks and proven methodologies to accelerate your organization's transformation in the value-based care landscape.

Register Early & Save! Groups of 3 or more can save an additional 10% off the registration fee. To register visit our website at **www.brinetwork.com** or call us at **800-743-8490**!

We look forward to seeing you in Las Vegas, NV!

WHO SHOULD ATTEND

From Hospitals/Health Plans/Health Systems/ Gov't Agencies

- CEO's
- CFO's
- Chief Medical Officers
- Chief Quality Officers
- Value-Based Care
- Accountable Care Organizations
- Chief Marketing Officers
- Population Health Management
- Medical Management
- Community Health
- Medicare
- Senior Products
- Medical Directors
- Reimbursement
- Contracting
- Claims Management
- Government Programs
- Health Reform
- Patient Quality & Safety
- Readmissions
- Innovation
- Nursing Director
- Auditing
- Compliance
- Data Analytics
- Managed Care
- Care Management
- Operations
- Finance
- Strategy
- Business Development
- Regulatory Affairs
- Risk Management
- Utilization Management
- Network Management
- Clinical Director
- Revenue Cycle
- Quality Management

Also of interest to: Vendors; Solution Providers; Population Health Management Organizations; Home Health Care; Physician Groups; Healthcare Consultants

DAY ONE – MONDAY, OCTOBER 20, 2025

7:15am – 8:00am
Conference Registration & Networking Breakfast

8:00am – 8:15am
Chairperson's Opening Remarks

8:15am – 9:00am
Beyond Fee-for-Service: Navigating the New Healthcare Payment Paradigm

Healthcare payment models are experiencing unprecedented transformation as providers, payers and patients demand greater value from every healthcare dollar spent. This session examines the forces driving change in payment structures and explores emerging models that prioritize outcomes over volume. We'll dive into recent CMS innovations and discuss how organizations are preparing for the next wave of payment reform. Gain insights into regulatory shifts that will shape the industry over the next five years and understand how to position your organization for success in this evolving landscape.

Michele Forgues Lackie, MBA, FACHE, FACMPE, CHFP, CCP
Chief Financial Officer of the INW Region (Inland Northwest)
MULTICARE HEALTH SYSTEM

9:00am – 9:45am
The Crossover of Virtual Care and Value Based Care

Anthony Roggio, MD
Assistant Professor
Department of Emergency Medicine
UNIVERSITY OF MARYLAND SCHOOL OF MEDICINE
Medical Director of Telehealth
UNIVERSITY OF MARYLAND MEDICAL SYSTEM

9:45am – 10:15am
Networking & Refreshments Break

10:15am – 11:00am
AI-Powered Population Health: From Data Chaos to Clinical Clarity

Artificial intelligence is revolutionizing how healthcare organizations identify, stratify and manage high-risk patient populations across diverse care settings. This session showcases breakthrough applications of machine learning in predicting hospital readmissions, identifying social determinants of health and optimizing care team workflows. Discover how natural language processing is extracting valuable insights from unstructured clinical notes and how predictive models are enabling proactive interventions before health crises occur. Learn about the ethical considerations and regulatory frameworks that guide responsible AI deployment in healthcare settings.

Rishikesh P. Dalal, MD, MPH
Weill Cornell Medicine
Clinical Assistant Professor of Medicine
WEILL CORNELL MEDICAL COLLEGE

11:00am – 11:45am
When Capacity Becomes the Catalyst: Aligning Fee-for-Service and Value-Based Incentives

Explore how capacity constraints can realign financial and clinical priorities, creating fertile ground for value-based care adoption. This session would explore how patient flow constraints can be reframed as opportunities to drive value and optimize system-wide performance.

Vladimir Manuel, MD, MS
Senior Quality Officer
Assistant Professor, UCLA Department of Family Medicine
Health Systems Researcher
UCLA HEALTH

11:45am – 12:30pm
Digital Therapeutics and Virtual Care: Scaling Personalized Medicine

The convergence of digital therapeutics, remote patient monitoring and virtual care platforms is creating new possibilities for delivering personalized interventions at population scale. This session explores how organizations are integrating evidence-based digital tools into their care delivery models to address chronic disease management, behavioral health and medication adherence challenges. Learn about the latest FDA-approved digital therapeutics and how they're being incorporated into value-based contracts. We'll discuss implementation strategies that ensure high patient engagement rates and examine the economic models that make digital health interventions financially sustainable for both providers and payers.

Heather Leisy, MD
Medical Director of Population Health Quality
UC DAVIS

12:30pm – 1:30pm
Networking Luncheon

1:30pm – 2:15pm
Workforce Transformation in the Age of Value-Based Care

Healthcare organizations are discovering that successful value-based care implementation requires fundamental changes to traditional staffing models and workforce development strategies. This session explores innovative approaches to team-based care that maximize the contributions of nurse practitioners, physician assistants, care coordinators and community health workers in delivering comprehensive population health management. Learn about redesigning job roles, creating new career pathways and implementing competency-based training programs that align workforce capabilities with value-based care objectives. We'll examine compensation structures that reward team performance over individual productivity and discuss strategies for building resilient care teams that can adapt to changing patient needs and contract requirements. Topics to be discussed will include:

- Developing interprofessional care teams that optimize scope of practice for all team members
- Creating training programs that build population health management competencies across disciplines
- Implementing performance measurement systems that reward collaborative care delivery
- Building workforce resilience through cross-training and flexible staffing mod

Brian Justice, MD
Adjunct Assistant Professor of Public Health Sciences
UNIVERSITY OF ROCHESTER SCHOOL OF MEDICINE AND DENTISTRY

2:15pm – 3:15pm
Panel: Cracking the Code on Provider Engagement in Value-Based Care

Physician alignment remains one of the most challenging aspects of value-based care transformation, with many organizations struggling to translate financial incentives into meaningful behavior change. Panelists will share battle-tested strategies for creating physician buy-in, discuss common pitfalls that derail engagement efforts and explore innovative approaches to clinical workflow redesign. The conversation will cover everything from compensation model design to the role of peer-to-peer learning in driving adoption, as well as:

- Designing compensation structures that align individual physician incentives with population health goals
- Overcoming resistance to change among established physician practices
- Creating meaningful feedback loops that help physicians understand their impact on outcomes
- Building collaborative relationships between employed and independent physician groups

Maisha Draves, MD, MPH
Associate Executive Director
THE PERMANENTE MEDICAL GROUP

Shashank Ravi, MD MBA
Medical Director of Health Plans and Value Based Care
STANFORD HEALTH CARE
Director of Quality, Adult Emergency Department
Associate Professor
Department of Emergency Medicine,
Stanford University School of Medicine
STANFORD HEALTH

Nicole Blair
Manager, Behavioral Health Integration
ADVOCATE HEALTH

3:15pm – 3:45pm
Networking & Refreshments Break

3:45pm – 4:30pm
Medicaid Managed Care Innovation: Serving Vulnerable Populations Through Value-Based Models

Medicaid managed care organizations are pioneering innovative approaches to serving vulnerable populations through value-based arrangements that address both medical and social needs comprehensively. This session explores breakthrough programs that integrate housing assistance, transportation services and food security interventions into comprehensive care management strategies. Learn how successful Medicaid MCOs are partnering with community-based organizations to address social determinants of health while achieving sustainable cost savings. We'll examine state-specific innovations and federal waiver programs that are expanding the scope of covered services. Topics to be discussed will include:

- Developing whole-person care models that address medical and social needs simultaneously
- Creating sustainable partnerships with housing authorities, food banks and transportation providers
- Implementing culturally competent care delivery models for diverse Medicaid populations
- Navigating complex regulatory requirements while maintaining focus on member outcomes

Nina Jain, MD
Senior Medical Director, Value-Based Care
MASS GENERAL BRIGHAM

4:30pm – 5:15pm
Behavioral Health Integration: Breaking Down the Silos

The integration of behavioral health services into primary care and medical specialty practices represents one of the most promising opportunities for improving outcomes while reducing costs in value-based care arrangements. This session explores evidence-based integration models that have demonstrated success in reducing emergency department utilization, improving medication adherence and enhancing overall patient satisfaction. Discover practical implementation strategies for co-locating services, training primary care teams and establishing effective referral pathways. We'll examine financing mechanisms that support integrated care delivery and discuss regulatory considerations that impact service delivery models.

Carla Beckerle
Vice President of Clinical Programs
ESSE HEALTH

5:15pm- 6:00pm
Workforce as Strategy: Preparing Clinicians to Deliver Value-Based, Whole-Person Addiction Care

In a value-based care environment, outcomes and cost aren't just driven by treatment models — they're driven by the people delivering them. Drawing on lessons from large-scale implementation across addiction care settings, participants will examine practical strategies to train, supervise, and engage clinicians in ways that improve care quality and align with payer expectations. Topics will include clinician competencies, documentation, treatment planning, and building buy-in for whole-person, equity-informed care delivery.

Rachel Sasseville, LICSW, LADC-I
Director of Corporate Training
SPECTRUM HEALTH

6:00pm
End of Day One

DAY TWO – TUESDAY, OCTOBER 21, 2025

7:15am – 8:00am
Networking Breakfast

8:00am – 8:15am
Chairperson's Recap

8:15am – 9:00am
Consumer-Directed Health: Empowering Patients as Partners in Value Creation

Healthcare consumerism is fundamentally changing how patients interact with the healthcare system, creating new opportunities for engagement while challenging traditional provider-patient relationships. This session examines innovative approaches to patient activation that go beyond simple education programs to create meaningful partnerships in health management. Learn how to leverage patient-generated health data, social media engagement and peer support networks to drive behavior change at scale. We'll explore the latest research on health literacy interventions and discuss how value-based contracts are incorporating patient experience metrics in meaningful ways.

Jerry Hauptman, MD
Chief Medical Officer and Senior Vice President of National Accounts
UNITEDHEALTHCARE

9:00am – 9:45am
The Future of Value-Based Contracting: Harnessing AI

Given the nascency of most AI solutions being deployed in health care, there is a paucity of evidence evaluating the effectiveness and portability of AI solutions across settings, operating context, and populations. This session explores opportunities presented by emerging AI technologies to improve the dual goals of VBC - increasing quality and reducing cost - by examining several AI real world use cases. Additionally, using a multidimensional framework, the session assesses the potential for AI solutions to mitigate the inherent challenges associated with VBC adoption.

Roshini Moodley Naidoo, MBChB, MPH, MBA
Professor of Practice
College of Health Solutions
ARIZONA STATE UNIVERSITY

9:45am – 10:15am
Networking & Refreshments Break

Register by **August 22nd** and save an Additional **$100** off the Early Bird!
(Mention Promo code BR100)

10:15am – 11:00am
Health Equity as a Business Imperative

Healthcare organizations are recognizing that addressing health disparities isn't just a moral obligation—it's essential for achieving sustainable value-based care success across diverse patient populations. This session examines practical approaches to collecting and analyzing health equity data while respecting patient privacy and cultural sensitivities. Topics to be discussed will include:

- Developing culturally competent care protocols that improve outcomes for underserved populations
- Building trust within historically marginalized communities through transparent engagement strategies
- Creating sustainable funding mechanisms for social determinants interventions
- Implementing bias training programs that transform clinical decision-making processes

Tamara Bourda, PhD, MBA, MPH, FACHE
System Administrative Officer, Health Equity
MUSC HEALTH SYSTEM

11:00am – 11:45am
Rural Health Innovation: Overcoming Geographic and Resource Constraints

Rural healthcare providers face unique challenges in implementing value-based care models, from limited specialist availability to transportation barriers that complicate care coordination efforts. This session highlights innovative solutions that rural health systems are developing to participate successfully in value-based arrangements despite resource constraints. Discover how telehealth, mobile health units and community health worker programs are extending care capabilities across vast geographic areas. Learn about federal programs and private initiatives that provide financial and technical support for rural value-based care transformation.

Devdutta "Dev" Sangvai, MD, MBA, FAAFP
Secretary
NORTH CAROLINA DEPARTMENT OF HEALTH AND HUMAN SERVICES
Professor Emeritus
DUKE UNIVERSITY HEALTH SYSTEM

11:45am – 12:30pm
The Future of Healthcare: Emerging Models and Disruptive Innovations

Healthcare delivery is being transformed by emerging technologies, new care delivery models and changing consumer expectations that challenge traditional assumptions about how and where care should be delivered. This session examines breakthrough innovations including virtual-first health plans, employer-sponsored primary care centers and direct-pay specialty practices that are reshaping the competitive landscape. We'll explore the potential impact of technology companies entering healthcare markets and discuss how traditional healthcare organizations can adapt and compete. Learn about the regulatory changes and policy innovations that will shape the next decade of healthcare transformation.

Jatin Dave, MD
Chief Medical Officer Government Products
UPMC HEALTH PLAN

12:30pm – 1:15pm
Specialty Care Transformation: Bringing Value-Based Models to Complex Conditions

While primary care has led the charge in value-based care adoption, specialty practices are increasingly embracing innovative payment models that reward outcomes over volume in complex clinical areas. Discover how specialty practices are redesigning their care delivery models to support episode-based payments and shared savings arrangements. Learn about

the unique challenges specialty providers face in risk-based contracts and explore solutions that enable sustainable transformation.
Topics to be discussed will include:

- Developing episode-based payment models for high-cost specialty procedures
- Creating multidisciplinary care teams that optimize specialty care delivery
- Implementing remote monitoring technologies that extend specialty expertise
- Building referral networks that support seamless care transitions across specialties

Karen Marie Joswick, MHA, CHCIO, FHIMSS, CPHIMS
Adjunct Instructor

1:15pm
Conference Concludes

CONFERENCE WORKSHOP SESSION

Tuesday, October 21, 2025 • 1:30pm – 3:30pm

Building Your Value-Based Care Strategic Roadmap

This workshop guides participants through a systematic approach to developing a comprehensive value-based care strategy tailored to their organization's unique circumstances, capabilities and market position. Attendees will assess their current readiness for value-based care participation and identify specific areas requiring investment or improvement. The session combines strategic planning frameworks with practical implementation tools, ensuring participants leave with actionable plans they can immediately begin executing. We'll address common implementation challenges including physician engagement, technology infrastructure and payer relationship management while providing proven solutions from successful transformations. Participants will develop detailed timelines, identify key stakeholders and create measurement frameworks for tracking progress toward value-based care goals.

Learning Objectives:

- Conduct a comprehensive organizational assessment to identify value-based care readiness gaps and opportunities
- Develop a phased implementation plan with specific milestones, timelines and resource requirements
- Create stakeholder engagement strategies that build organizational alignment and support for transformation
- Design measurement and monitoring systems that track progress and enable continuous improvement in value-based care performance

Karen Marie Joswick, MHA, CHCIO, FHIMSS, CPHIMS
